16-channel intelligent hard disk recorder supporting 16-channel 4K camera input/output. Features intelligent functions: boundary crossing detection, vehicle reverse detection, personnel absence detection, personnel loitering detection, zone intrusion detection, and vehicle illegal parking detection. Supports voice alarm functionality in multiple modes. Enables modification of lighting modes for IPCs using proprietary protocols. Supports online and USB flash drive upgrades for our cameras. Accommodates up to one 16TB hard drive, one HDMI and one VGA output port, two USB ports, and mobile monitoring.

Highlight

- 16-Channel NVR (Supports up to 16 IP cameras)
- Supports 4K camera input/output
- 100 Mbps Single Ethernet Port
- Smart H.265 Video Compression
- AI Detection: Human & Vehicle Detection
- Mobile App Monitoring
- ONVIF Compatible
- Supports up to 16TB HDD storage
- HDMI & VGA Video Output
