

# PIR Detector

Wired PIR Motion Detector

## DT-8435DMT

## Specification

### Overview

Detect distance	11m/25	Led	Yellow for Microwave Green for PIR Red for alarming
Input voltage	9-16VDC	Installation	Wall mount 2.0-2.4 meters Note: bracket can install angle
Current consumption	DV12V@50Ma PIR part(as picture shows)	Work temperature	-10°C-50°C(14°F-122°F)
Lens	PIR:9-5+3(typical)	Storage temperature	-20°C-60°C(-4°F-140°F)
Max detect area	11*11m(36*36feet)/90°	Anti white light (indoor)	>9000LUX
Alarm output	solid state relay,N.C type. Less than 100Ma/30v,-10Ω Internal impedance	Anti-radiation interference	30V/M, 10MHz-1000MHz
Anti-tamper connector	N.C type, 50Ma/30VDC Less than 100Ma/30v,-10Ω Internal impedance	Measurement	125*74*43mm
